

### Estimate of the Church Construction

Building Supplies	Quantity	Price unit.	Total per Unit	Remarks
Stone	40 Loads/ 7m <sup>3</sup>	103	4120	
Gravel	30 loads. / "	230	6900	
Stone filler	65 loads	69	4485	
Sand	85 loads	138	11730	
Blocs	18000	0.57	10260	
Tiles	1250 m <sup>2</sup>	11.50	14375	
Cement	5889 bags	8	47112	
Iron ¼*20	4 tons	827	3308	
Iron 3/8*30	3 tonnes	827	2481	
Iron ½*30	30 tonnes	827	24810	
Iron 5/8*30	6 tonnes	827	4962	
Tighting Wire	7 rolls	80	560	
Lumber 1*12*16	10 dozens	276	2760	
Lumber 2*4*16	8 dozens	138	1104	
Plywood	6 dozens	483	2898	
Nail	7 cases	46	322	
Electric supplies			4560	
Plumbing			3500	
Roofing			23000	
Payroll			25000	
Unexpected expenses			1753	
<b>Total</b>			<b>200,000 USD</b>	

This funds will make available to Living Water 16 classrooms and offices. It is a two-story building. The classrooms will be used on Sunday for Sunday School. During the week, we will be using about 4 of them for the Bible College. One will be assigned to Luke to teach classes focusing mostly on the Old Testament/Practical Ministry courses. One will be assigned to my friend Dan to teach Theology. One will be assigned to Salonique to teach classes focusing on the New Testament/Practical ministry. The other one will be assigned to professors teaching General Education classes.

We will also make available to the Vocational School several rooms that they will be used to teach other branches like Computer Ap., Sewing, Accounting, Plumbing, Electrical Wiring, Culinary Art, etc. Also spaces will be used to launch our School of Arts including Music.

Just like we are making extremely good use of the space at our disposal today, we will also make very good use of the space that this building will afford us.
